

Get Involved in Sustainability

Every resident and business can do something to contribute to our community's sustainable future. In support of the City's certification through Sustainable Maryland program, Rockville has numerous programs to help you live greener and healthier. What will you choose to do today?

Community Action

Help build a common vision and a strategy for moving ahead with Rockville's sustainability efforts.

- [Environment Commission/Sustainable Maryland Green Team](#)

Food

Support Rockville's efforts to increase access to fresh, healthy local foods, improve nutritional and healthy living programs, and promote farm markets and neighborhood gardens.

- [Farmers Markets](#)
- [Community Gardens](#)
- [Community Supported Agriculture \(CSAs\)](#)
- [TapIt Program](#)

Health and Wellness

Participate in Rockville's programs to improve the health and wellness of our community by addressing obesity, recreation, health, housing and parenting.

- [Kids Rock to Fitness](#)
- [Play a Round](#)
- [Safe Routes to School](#)
- [Community Services](#)
- [Biking in Rockville](#)
- [Parks and Facilities](#)

Local Economy

Support local businesses and promote sustainable practices in the business community.

- [REDI](#)
- [Rockville Chamber of Commerce](#)
- [Montgomery County Green Business Certification Program](#)
- [Maryland Green Registry](#)

Energy

Increase energy efficiency, energy independence and use of renewable energy.

- [Green Power Community Challenge](#)
- [Save Energy](#)
- Energy Efficiency Incentives: [Residential](#) | [Commercial](#)
- [Green Building](#)

Natural Resources

Get involved in initiatives to protect our streams, promote healthy ecosystems, increase tree canopy, reduce pollution and increase recycling.

- [Rainscapes Rewards](#)
- [Save Our Streams](#)
- [Adopt a Stream](#)
- [Storm Drain Marking](#)
- [Weed Warriors](#)
- [Prevent Stream Pollution](#)
- [Tree City USA](#)
- [Pet Waste](#)
- [Recycling](#)
- [Community Wildlife Habitat Certification](#)

Greenhouse Gas

Learn how every business and resident can take simple steps to improve air quality and reduce greenhouse gas emissions.

- [Energy and Climate](#)
- [Drive Less Rockville](#)
- [Take Transit](#)
- [Biking in Rockville](#)
- [Calculate Your Carbon Footprint](#)

Planning and Land Use

Sustainable planning, land use, transportation and green design improves the quality of life for the residential and business communities.
